Wholesale Payments: Your Gateway to Efficient Wholesale Transactions

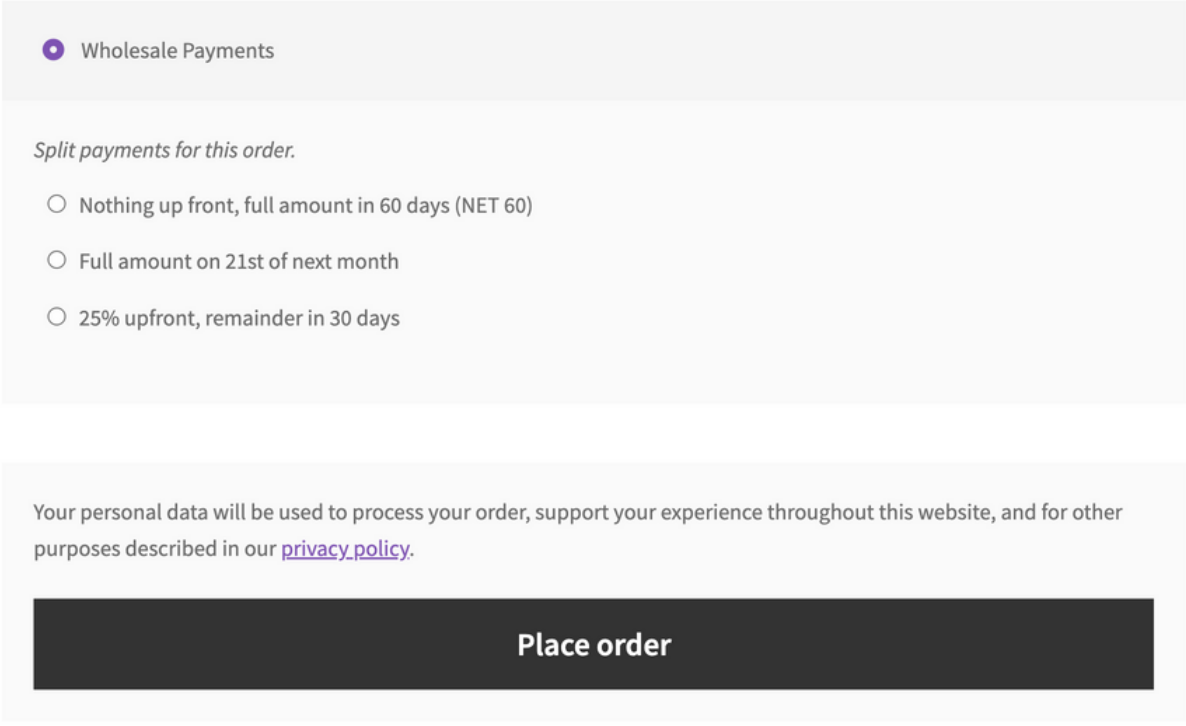

Time is your most valuable asset, especially in the complex and fast-paced world of wholesale transactions. This is why we've created Wholesale Payments– a powerful plugin that empowers WooCommerce store owners like you to offer split payments and customized payment plans right within your e-commerce store!

Wholesale Payments also simplifies your operations by providing an intuitive platform for managing pending orders, monitoring outstanding balances, and effortlessly handling invoices.

Let's explore its key features! 😊

Key Features

Customized Payment Plans
Create personalized payment plans, allowing for a variety of structures such as NET 30, an initial 50% payment with the remainder in 60 days, full payment on the 21st of the next month, and more!

Personalized Split Payment Plans

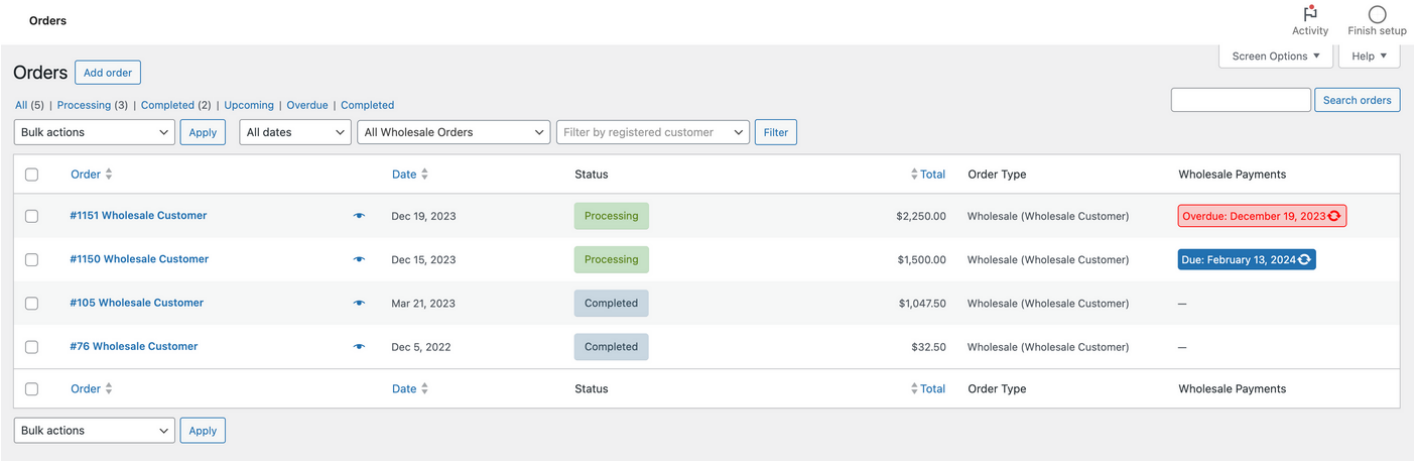

Give your wholesale customers the flexibility they need by offering fully customizable split payment options tailored to your unique business requirements.

Flexible Payment via Stripe Invoices

Empower your wholesale customers to conveniently pay via Stripe invoices. Whether it's through ACH Direct Debit or popular methods like credit cards and digital wallets, Stripe ensures a seamless and versatile payment experience, prioritizing ease and convenience in every transaction.

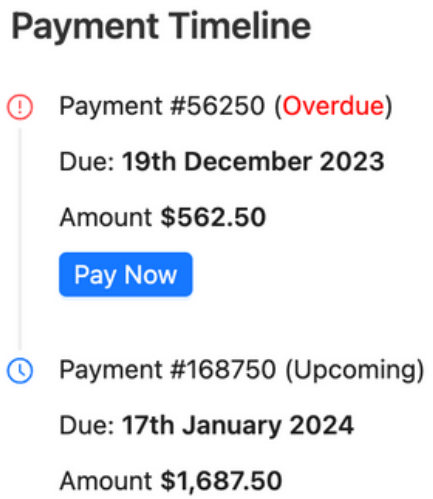

Effortless Order Management

Simplify your workflow with the ease of viewing and managing pending orders. Experience a seamless process that enhances the experience for both you and your customers.

Visibility into Outstanding Balances

Stay in control of your finances by effortlessly tracking orders with outstanding balances. This ensures transparency and facilitates efficient financial management for your business.

Intuitive Invoice Management Controls

Take control of your invoicing process with a user-friendly platform that streamlines management and organization, putting you in complete control.
